Bartlett Intersection Improvements – *Recently Completed*

PROJECT LOCATION

IMPROVEMENTS

The Route 17 (Carrollton Boulevard) at Route 258 (Brewers Neck Boulevard) Capacity Improvements project in Isle of Wight County encompasses traffic signalization improvements, roadway elevation adjustment for improved drainage and intersection paving, along with development of new turn lanes and through lanes.

- Project added a single southbound left-turn lane from Route 17 South into James River Crossing Development
- Added a northbound left-turn lane from Route 17 onto US 258, creating a dual left-turn lane configuration.
- Converted Eastbound US 258 into a 3-lane section, with dual left-turn lanes and a single thru lane into the development.
- James River Crossing Development will be installing a fourth leg to the intersection and final signal of the intersection.

PURPOSE

The project will improve capacity and enhance overall level-of-service conditions now and into the future based on existing and anticipated future traffic volumes.

PROJECT FUNDING

Project is fully funded through Smart Scale funding.

PROJECT COSTS	
Total Estimated Cost	$5,320,000
Construction	$3,900,000

CONSTRUCTION SCHEDULE

Construction began in Spring 2021 and was completed in Spring 2022.
