Carrollton Boulevard (Route 17) Crosswalks – *Recently Completed*

PROJECT LOCATION

IMPROVEMENTS

The project improvements consists of installing a push-button actuated crosswalk at the intersection of Carrollton Boulevard (Route 17) / Eagle Harbor Parkway and Kings Cross and a pedestrian crossing at the intersection of Smiths Neck Rd / Graystone Drive. Additional pedestrian safety features at the intersections include a refuge island in the median, and the installation of curb ramps and crosswalk pavement markings.

PURPOSE

The project will improve pedestrian safety at these intersections.

PROJECT FUNDING

Project is fully funded through Smart Scale funding.

TOTAL PROJECT COSTS	
Total Cost	**$210,000**

CONSTRUCTION SCHEDULE

Construction began in Spring 2020 and was completed November 2020.
