Nike Park Road Extension – *Under design by VDOT*

PROJECT LOCATION

IMPROVEMENTS

The Nike Park Road Extension Project will consist of constructing a new one-mile, two-lane collector roadway connection between Reynolds Drive to a new intersection location along US Route 17 (Carrollton Boulevard). The project will involve intersection improvements at the existing Reynolds Drive, as well as additional improvements at the intersection of Route 17 that will include a signalized intersection and additional turn lanes. The project will also include the construction of a 10’ wide multi-use path that will run parallel to the new facility.

PURPOSE

This project aims to reduce congestion at Smiths Neck Road and US 17, provide a new connection from Nike Park Road to US 17, and provide multimodal improvements along the corridor.

PROJECT FUNDING

Project is to be fully funded through Smart Scale funding.

ESTIMATED PROJECT COSTS

Preliminary Engineering	$1,858,000
ROW and Utility Relocation	$3,695,000
Construction	$10,749,000
Total Cost	**$16,302,000**

ANTICIPATED SCHEDULE

- Preliminary Engineering Begin October 2016
- ROW and Utilities Begin July 2022
- Construction Begin September 2024
- Construction Completion October 2025
