

ISLE OF WIGHT
Safety Action Plan

Vision for a Safer Isle of Wight County

Isle of Wight County is committed to providing safe and accessible roadways for all users, recognizing that safe transportation is a fundamental right. To achieve this goal, the County is developing a comprehensive Safety Action Plan, funded by the Federal Highway Administration (FHWA) Safe Streets and Roads for All (SS4A) program.

SAFE STREETS FOR ALL!

This initiative will reduce roadway fatalities and serious injuries by:

- **Identifying challenges and areas for improvement**
- **Developing effective strategies and solutions**
- **Evaluating safety measures**

The Safety Action Plan will guide the future implementation of safety improvements based on the findings from our comprehensive analysis of crash data, stakeholder engagement, and safety assessments. We will prioritize and implement effective safety measures that address the root causes of crashes and near-misses in Isle of Wight County, with a focus on infrastructure improvements, engineering and enforcement solutions.
